The Flight

Flight. Night flight. We are flying in a dream. Birds are flying. Is the fall also a flight? Flight is freedom. Flight is an arrow heading towards a target. Flying is the way to get to your destination. Flight is space. Angels ... music ... silence ... express their vision of flight. Take a journey into your imagination. Share your unique experience and fly with me!

Phoenix is one of my favourite symbols. It's a mythical bird which can burn itself and is reborn from the ashes in the freshness of youth. A phoenix symbolizes birth, death, renewal and hope. Death can't defeat phoenixes, they fly high again. Flying is freedom, flying is life.

Far from the horizon, it is not known what altitude, flying between and above the clouds, with the birds a sensation of almost transcendental freedom, the sensation of the divine touch.

A round canvas that reinforces the feeling of infinity, without beginning or end, a metaphor for heavenly paradise.

In my painting, I wanted to show that joy and optimism make us “grow wings”, that we feel that we can fly. Regardless of where we are and what we do, let us try to appreciate our lives, let us try to see the happiness that surrounds us. Let us help ourselves and appreciate the smallest gestures of kindness. Let’s look to the future with optimism, instead of finding new obstacles. Let us have dreams, let us pursue our passions. Then our wings will grow — they will not be visible to the world, but we will know that we have them...

The sound of the leaves written primarily by trees.

As such was the beauty heard plainly with ease.

Up mountains, round rivers.

A song for the birds.

For the people that fly there.

Across valleys was heard.

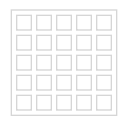

Now what be the mention of this, you may wonder,

Alone to unravel the blur from down under.

A song can be sung from the language of trees.

I heard in the sky and then carried to thee.

The "spaceship whale" airship is in an environment that is part sky and part water. There are moments that are at the bottom, and others are at the top. When we use gas to float, we fly, we believe in our wings. On this flight we carry people, some are passersby (who are represented by the fish) others will accompany the journey together (who are inside the transport cabin). Flying is always present when we walk our own path.

For me, flying is a detachment from the ordinary, it is a game of imagination, when it is pleasant-ordinary things and activities begin to coexist with the unusual and sublime. There are simple and familiar objects in the picture, but there is also my imagination, which sets everything in motion and spiritualizes what seems to us banal and unspiritual. In the Flight of my imagination, I want to stop my momentary understanding and combine the simple and the complex. This is my flight (or attempt at it).

Zsuzsanna Erényi: Harmony

Birds are the creatures of freedom. They are flying free, they can reach unattainable places and distances, they can fly over seas, forests, mountains and towns.

When I was child I was a bird in my most beautiful dreams, with huge wings I could rise high and was flying above the houses. Flying is happiness!

I used to frequently dream of flying when I was a child – by escaping from my room through the window and flying over the mountains, rivers, changing the shape along the way. Tried as I may to fly when I was awake, I believed that I could actually fly in my dream and visit the enchanted places.

All it takes is a little breeze and the parachutes set off into the big world.

They land in the sky.

The children fly out of the nest to endless possibilities.

"Away We Go" was painted in acrylics on canvas.

This piece sparks a youthful note within me, and reminds me of how much more simple life used to be. Imagination was the key, and it's something that needs to be acknowledged more in today's world.

The work was made on 5 glass plates spaced 3 mm apart

“Wings only mean freedom if they are wide open in flight.
If they just rest on our backs, their weight will weigh on us.”

Curator's Note

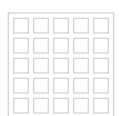

Thank you to all artists who applied for the exhibition THE FLIGHT. It was a tough challenge, I know. It's much harder to CREATE than COPY.

It was difficult for me to choose 20 finalists. I made the decision based on the "subject", not the painting or drawing skills you've shown. I liked some of the works for their sense of humor.

I have selected the three best works to choose the winner, and my heart is drawn to the most dynamic one. I know how difficult it is to show motion on a static canvas, and appreciate that someone made it clear.

I wish all artists the best in your creative career.
Enjoy who you are!

Regards
Nick Fedaeff

Gallery's Note

How many travel plans were postponed last year? How many flights were canceled? How many new places did we miss? But there is no need for a raincheck on the flights of our imaginations. In our dreams, we can hit the road at any time and go as far as we want. The artists who applied for this exhibition definitely know how to do it.

They can levitate with a goddess, float above rooftops, and sail to the future. They know the songs of those who can fly. They can poise between dimensions and break the laws of physics. In the morning fly over the sea, they will meet phoenixes and find harmony and freedom.

Their name is Artist.

The winners of the contest are:
